
Hospital Quality and Patient Safety

The Leapfrog Group

The Leapfrog Group is a program that collects information on hospital quality and patient safety efforts (voluntarily submitted by hospitals) to help consumers make informed decisions about where to receive hospital care. The measurements include: computer physician order entry (CPOE); intensive care unit (ICU) staffing by physicians experienced in critical care medicine; and a combination of factors known as the Leapfrog Safe Practices score. Visit <http://www.leapfroggroup.org/> to learn more.

Hospital Compare

Hospital Compare is a tool that provides information on how well hospitals all over the country care for their adult patients with certain medical conditions. Hospitals voluntarily submit quality information to Hospital Compare to make public. The areas measured include: heart attack care; heart failure care; pneumonia care; and surgical care improvements. Visit <http://www.hospitalcompare.hhs.gov/> to learn more.

Symbol Key

- ❶ Leapfrog – CPOE
- ❷ Leapfrog – ICU
- ❸ Leapfrog – Safe Practices
- ❹ Hospital Compare – Heart Attack Care
- ❺ Hospital Compare – Heart Failure Care
- ❻ Hospital Compare – Pneumonia Care
- ❼ Hospital Compare – Surgical Care Improvements

The following is an alphabetical listing of our network hospitals and corresponding symbols indicating their participation in the measurements.

Hospital Name	Abbreviation
Albany Medical Center Hospital 4567	AMC
Albany Memorial Hospital 4567	Memorial
Albert Lindley Lee Memorial Hospital 4567	ALLEE
AMC South Clinical Campus	AMC South
Amsterdam Memorial Hospital 6	Amsterdam Memorial
AO Fox Memorial Hospital 4567	AOFox
Bellevue Woman's Hospital 7	Bellevue
Benedictine Hospital 4567	Benedictine
Berkshire Medical Center 1234567	Berkshire
