

Dependable Rx Coverage

Prescription medications can have a big impact on your health - and on your wallet. That's why it's important to know how your prescription drug coverage works. CDPHP makes it easy to save at the pharmacy and get the medications you need.

A Penny a Pill!*

With Rx for Less, get deep discounts on specific generic drugs at any CVS/pharmacy, Hannaford, Market 32 and Price Chopper, ShopRite, Target, or Walmart.

Mail Order**

If you take medications for chronic conditions, consider signing up for the **Prescription Mail Order Service**, which allows you to obtain up to a 90-day supply mailed to your home.

Save Big at CVS!

The CVS ExtraCare® Health card offers a 20 percent discount on CVS brand health products. You'll receive your card in the mail when your plan starts.

Check your CDPHP member ID card to find out which formulary (list of covered drugs) is available with your plan. The tier assigned to a drug determines how much you will pay for it. Excluded drugs are covered only by medical exception, which your doctor can apply for.

CDPHP partners with Caremark®, a national prescription benefit manager. With the Premier Rx network, you can fill prescriptions at virtually all chain store pharmacies and most independents.

Visit www.caremark.com or call Caremark 24/7 at **1-888-292-6330** to find out:

- ▶ If a particular drug is covered
- ▶ How much you can expect to pay
- ▶ If there is a generic alternative

For more information, visit www.cdphp.com/RxCorner.

* Rx for Less does not apply to mail order service.

** Specialty pharmacy agents, including injectables and certain drugs used to treat hepatitis C, HIV, multiple sclerosis, and other serious conditions, are not eligible for this program. Get more information about specialty drugs at <https://www.cdphp.com/members/rx-corner/specialty-drugs>.
