

Don't play a guessing game. Go online for a CDPHP® Price Check™

Shopping around is about gathering information and making educated decisions. We think your employees should have that option when it comes to health care. Now, it's easier than ever to get an estimate online or by using the My CDPHP app!

CDPHP Price Check offers employees a new level of cost transparency by allowing them to search for estimated costs on a range of health care services before they choose a provider. Armed with this information, your employees will have more control over their health care dollars as they compare prices and plan for expenses in advance of a service rather than when they receive the bill.

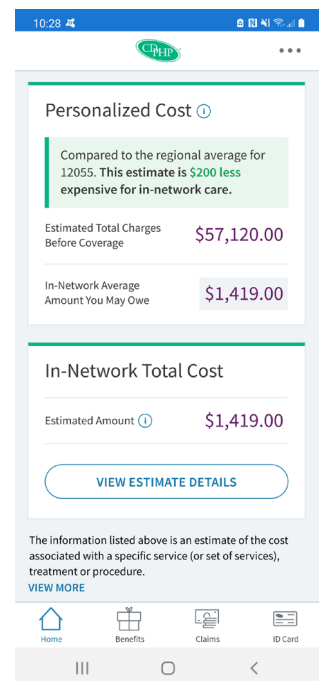

We encourage your employees to take the mystery out of health care costs by using CDPHP Price Check. The following are the top ten searched services:

- ▶ Carpal Tunnel Surgery
- ▶ Cataract Extraction
- ▶ Cesarean Section
- ▶ CT Scan Abdomen and/or Pelvis
- ▶ Diagnostic Colonoscopy with Biopsy and Polyp Removal
- ▶ MRI Knee
- ▶ Screening Colonoscopy with Biopsy and Polyp Removal
- ▶ Total Knee Replacement
- ▶ Vaginal Delivery
- ▶ Vasectomy

Employees can log in to their online member account at www.cdphp.com and check out the costs* of a wide variety of procedures and services – with more being added all the time!

PRICE CHECK™

** The cost information provided by this tool is an estimate and is not your final cost. The cost estimate is designed as a reference tool only and should not be relied upon to make final medical decisions. CDPHP cannot guarantee the accuracy of the cost estimates provided. Your actual cost will vary based on your plan design, claims you may have in process, money available in your health spending accounts, the particular services and supplies you receive and more. Actual cost could vary. Medical cost estimates do not apply to members covered by Medicaid, Child Health Plus and most Essential plans.*
