

Healthy Direction

REWARD EMPLOYEES FOR INVESTING IN THEIR HEALTH
WHILE YOU SAVE MONEY ON HEALTH CARE COSTS.

A plan for life.

Pick Your Program

Healthy Direction programs give you another way to support your employees' health, saving you money in the long run. With any of the programs, you choose healthy steps for employees to take, and they track progress using our easy online service. Once all steps are completed, you provide incentives like premium differentials, contributions to a health funding account, paid time off, and more.

To start, pick any combination of the following options.

Healthy Direction Manager

Simply sign up for the service, use the customizable employer toolkit to promote the program, and supply the incentive as employees complete the steps.

INCENTIVE: Your choice! Examples include: premium differential, paid time off, gift cards, company events

ADMINISTRATION: Incentives managed and provided by you

Healthy Direction HSA

A health savings account (HSA) with extra rewards. Just like a checking account, the employee owns the HSA, but funds are used for qualified medical expenses.

INCENTIVE: Additional HSA funds

ADMINISTRATION: Incentives managed and provided by you

Healthy Direction HRA

Like a traditional health reimbursement arrangement (HRA), it provides a set amount of money that employees can use for qualified medical expenses, plus the Healthy Direction online service.

INCENTIVE: Additional HRA funds

ADMINISTRATION: Incentives provided by you and managed by CDPHP

HRA EXAMPLE

Member's HRA starts with
\$1,000

Member completes healthy steps and employer contributes \$500

Member's HRA increases to
\$1,500

Select Your Steps

Motivating employees to make healthy choices has never been easier.

The steps within Healthy Direction are small, simple tasks that have a positive impact on employees' health and your business. Choose any number of steps for employees to complete:

Visit a primary care physician (PCP)

Stopping health problems before they start is key to healthy employees.

Take a personal health assessment

The PHA is a series of questions to help understand how actions can influence health and wellbeing. Answers will be used to help create an action plan for better health.

Get a biometric screening

A biometric screening is a short health exam that provides information about risk for certain diseases and medical conditions. This screening is often part of a physical exam or offered at a health fair.

Go CDPHP Smoke-FreeSM

For smokers, commit to quit by enrolling in CDPHP Smoke-Free. Employees must participate in a minimum of three sessions with a quit coach.

Take a free CDPHP community wellness class

CDPHP offers a variety of wellness classes in the community and online that are free for members.

Get a Flu Shot

A flu shot is the best way to protect against the flu. Encourage your employees stay protected.

Participate in a CDPHP Workplace Health wellness program

Work with your CDPHP representative to choose the onsite and/or virtual Workplace Health wellness program(s) that's right for you and your employees.

Create your own activity

Work with your broker and/or CDPHP representative to set up an approved activity to offer to your employees. You track your employee's completion of this step and send the results to CDPHP. Examples include participating in a charity walk/run or taking a safety class.

We manage enrollment, monitor step completion, and provide an employer toolkit to foster engagement. Plus, you'll get data and reporting about employee progress.

Talk with your CDPHP representative to learn more.

Complete your agreement, select the healthy steps, and we'll take care of the rest. Employees will get access to an online tracker when logging into their account on www.cdphp.com and we'll provide you with the program results.
