

Dependable Rx coverage

Prescription medications can have a big impact on your health and on your wallet. That's why it's important to know how your prescription drug coverage works. CDPHP makes it easy to save at the pharmacy and get the medications you need.

Log in to member.cdphp.com to view all pharmacy benefit coverage details.

Take Control of Your Prescriptions

Download the **CDPHP ConnectRx, On the Go** app to stay updated about Rx benefit changes, view your prescriptions, and see cost-saving alternatives.

ConnectRx

CDPHP retail pharmacy locations support all of your pharmacy needs and can provide free home delivery to surrounding areas. Visit pharmacyconnectrx.com for more.

A Penny a Pill!*

With **Rx for Less**, get deep discounts on specific generic drugs at pharmacies like ConnectRx, Hannaford, Price Chopper/Market 32, and more! Visit cdphp.com/less for the full list of pharmacies and prescription drugs that are part of the program.

Mail Order**

Prescription Mail Order Service allows you to have up to a 90-day supply mailed to your home at a **lower copayment**.

Check your member ID card to find out which formulary (list of covered drugs) is available with your plan. The tier assigned to a drug determines how much you'll pay for it. Excluded drugs are covered only by medical exception, which your doctor can apply for.

Members have access to the Premier Rx network, which allows you to fill prescriptions at virtually all chain store pharmacies and most independents.

For more information, visit www.cdphp.com/RxCorner.

* Rx for Less does not apply to mail order service.

** Specialty pharmacy agents, including injectables and certain drugs used to treat hepatitis C, HIV, multiple sclerosis, and other serious conditions, are not eligible for this program. Get more information about specialty drugs at <https://www.cdphp.com/members/rx-corner/specialty-drugs>. Some of the pharmacy benefits listed may not apply for members who do not have Rx coverage. Check your member contract for details.
