

A plan for life.

2023 Medicare Cumulative Formulary Update Table C-SNP - September (through September 2023)

CDPHP may add or remove drugs from our formulary during the year. If we remove drugs from our formulary, add prior authorization, quantity limits, and/or step therapy restrictions on a drug, we will notify you of the change at least 30 days before the date that the change becomes effective. However, if the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary. The table below outlines upcoming changes to our formulary that may impact you.

IMPORTANT NOTE: Please contact the Pharmacy Customer Care Center at (866) 289-2319 for additional information. TTY users should call 711.

Important Message About What You Pay for Vaccines—Our plan covers most Part D vaccines at no cost to you, even if you haven’t paid your deductible (if your plan has a deductible). Call the Pharmacy Customer Care Center for more information.

Important Message About What You Pay for Insulin—You won’t pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it’s on, even if you haven’t paid your deductible (if your plan has a deductible).

ADDITIONS: Drugs that are being added to our Formulary

Name of Affected Drug	Reason for Change	Category	Utilization Criteria (if applicable)	New Tier	Effective Date
