See the next page for information about Pediatric Dental Coverage.

Essential Pediatric Dental Coverage

To make health care more accessible, the Affordable Care Act (ACA) requires that all individual health plans provide coverage for a range of core services known as Essential Health Benefits (EHBs), one of which is pediatric dental care. To ensure that CDPHP members are covered appropriately, we are providing the essential coverage through a pediatric plan offered by Delta Dental of New York, Inc. (Delta Dental). On the CDPHP Enrollment Application, you are asked if you and any applicable dependents are receiving the essential pediatric coverage. If you answer no, we will enroll you and applicable dependents in the pediatric plan through Delta Dental. You will be billed for all enrolled individuals (subscribers and dependents) who are 18 years of age or younger. See below for details about the pediatric plan offered through Delta Dental and the rates that apply.
