

## EXHIBIT 13b: NARRATIVE SUMMARY

Company Name:	<u>CDPHP Universal Benefits, ® Inc.</u>
NAIC Code:	<u>47027</u>
SERFF Tracking #:	<u>CAPD-131909305</u>
Market Segment:	<u>Small Group</u>

CDPHP Universal Benefits, Inc. (CDPHP UBI) offers EPO and high deductible products on a community-rated basis to small groups.

CDPHP UBI has filed a request for approval by the New York State Department of Financial Services for a change to the premium for this product effective January 1, 2020. Policyholders will receive rate adjustments upon their renewal in 2020. The weighted average single premium rate increase is 6.1%. 23,734 members and 14,041 policyholders are affected by this request.

As a not-for-profit health plan, CDPHP takes seriously its responsibility to control rising health care costs and be a good steward of your premium dollars. However, we continue to battle the rising cost of care, driven primarily by state and federal regulations and taxes, specialty drugs, and provider consolidation. These factors have resulted in the need to increase insurance premiums.

We are working hard to alleviate these cost increases in a variety of ways, such as:

- The CDPHP Enhanced Primary Care (EPC) program, a nationally-recognized patient-centered medical home that encourages high-quality, cost-effective services at the primary care level.
- Dedicating resources to improving the overall health of our membership.
- Easier and more convenient access to care through our telemedicine (live video doctor visits) partner, Doctor On Demand.
- CDPHP Price Check, a cost transparency tool that provides members estimated costs on a range of health care services.
- Movement of services to more cost-effective outpatient settings, such as freestanding surgical centers.
- Case management and medication therapy management services, available at no out-of-pocket cost.
- Mental health and substance use programs, including access to a 24-hour crisis line.

DFS's view of these matters may differ.

The 2020 expected change in medical and pharmacy costs due to trend is +6.6%.

Federal Risk Adjustment is a program that requires insurance carriers with low-risk members to pay into a fund that covers high-risk members. As a result of a decrease in the anticipated receivable from this program, the rates have increased 4.9%.

Federal ACA fees were reinstated for 2020 and will have an unfavorable impact of 2.0%.

CDPHP UBI is required by New York state insurance law to meet a minimum Medical Loss Ratio (MLR) standard of 82%. This means that 82% of premiums must be used to cover health care costs. CDPHP UBI will exceed this minimum requirement in 2020 with an MLR of 83.0%.
