- Collect the applicable copayment for services rendered at the time of the visit.
- Deductibles and coinsurance should be collected after receipt of the CDPHP payment.

Referrals/Authorizations

- Refer **ONLY** to participating physicians and providers. Consult “Find-A-Doc” on our website, your *Directory of Participating Practitioners and Providers*, or call the provider services department. Check the member’s benefit plan coverage to be sure referrals are issued to providers that participate in the member’s program.
- Utilize CDPHP’s preferred laboratory and radiology network.
- It is the responsibility of the authorizing practitioner to determine the length of treatment.
- You may utilize the PCP/OB-GYN *Patient Treatment Waiver* if you are not designated as the member’s PCP.
- After seeking services from a specialist, if a member requests another referral to a different physician of the same specialty, the PCP will issue another referral.
- Contact the resource coordination department for prior authorization of services from non-participating physicians/providers.
- Some CDPHP products provide coverage for non-participating physician/provider services without the prior authorization requirement. These services may increase the member’s out-of-pocket responsibility.
- The most up-to-date policies can be accessed by logging into the secure area of www.cdphp.com.
