

2019 CDPHP® Commercial Clinical Formulary- 2

(Effective 1-1-2019)

NON-DISCRIMINATION/MULTI-LANGUAGE INTERPRETER SERVICES: APPLIES TO MEMBERS/ENROLLEES ONLY

Discrimination is Against the Law

Capital District Physicians' Health Plan, Inc. (CDPHP®) complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. CDPHP does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

CDPHP:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact the CDPHP Civil Rights Coordinator.

If you believe that CDPHP has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with: CDPHP Civil Rights Coordinator, 500 Patroon Creek Blvd., Albany, NY 12206, 1-844-391-4803 (TTY/TDD: 711), Fax (518) 641-3401. You can file a grievance by mail, fax, or electronically at <https://www.cdphp.com/customer-support/email-cdphp>. If you need help filing a grievance, the CDPHP Civil Rights Coordinator is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW., Room 509F, HHH Building, Washington, DC 20201, 1-800-868-1019 (TDD 1-800-537-7697).

Multi-language Interpreter Services

ΠΡΟΣΟΧΗ: Αν δεν μιλάτε Αγγλικά, υπάρχουν στη διάθεσή σας υπηρεσίες γλωσσικής υποστήριξης οι οποίες παρέχονται δωρεάν. Καλέστε τον αριθμό που θα βρείτε στην ατομική σας ταυτότητα μέλους (TTY: 711).

VINI RE: Nëse flisni një gjuhë jo-anglisht, shërbime falas të ndihmës së gjuhës janë në dispozicion për ju. Telefonojini numrit në kartën tuaj të ID të anëtarit (TTY: 711).

CDPHP® Commercial Formulary 2

INTRODUCTION

CDPHP® (Capital District Physicians' Health Plan, Inc. and CDPHP Universal Benefits,® Inc.) is pleased to provide the *CDPHP Commercial Formulary 2* as a useful reference and informational tool to assist practitioners in selecting clinically appropriate and cost-effective drug therapies.

The information contained in this *CDPHP Commercial Formulary 2* and its appendices is provided by CDPHP, solely for the convenience of medical practitioners. CDPHP does not warrant or assure accuracy of such information. This *CDPHP Commercial Formulary 2* is not intended to be a substitute for the knowledge, expertise, skill, and judgment of the medical practitioner in his/her choice of prescription drugs. All the information in the *CDPHP Commercial Formulary 2* is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

CDPHP assumes no responsibility for the actions or omissions of any medical practitioner based upon reliance, in whole or in part, on the information contained herein. **The medical practitioner should consult the drug manufacturer's product literature or standard references for more detailed information.**

National guidelines can be found on the National Guideline Clearinghouse site at <http://www.guideline.gov>.

Please note, the information found in the *CDPHP Commercial Formulary 2* does not apply to any of the CDPHP Medicare or Medicaid products that offer prescription drug benefits. For information on these plans, please visit the Medicare or Medicaid Information section on <http://www.cdphp.com>.

PREFACE

The *CDPHP Commercial Formulary 2* represents CDPHP's prescription drug formulary and is organized by sections. The first section includes a list of CDPHP drugs requiring prior authorization. Thereafter, each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed alphabetically within each tier. This is a comprehensive list, only dosage forms and strengths of the drug cited are included in the *CDPHP Commercial Formulary 2*. **Generics should be considered the first line of prescribing.**

The CDPHP formulary is a closed formulary. In a closed formulary, drugs are either covered or excluded (not covered). Excluded products are only available by medical exception. Coverage of any agent listed in the formulary is subject to the member's contract. Quantity limits, prior authorization, dose optimization, and/or step therapy requirements may apply. Non self-administered Injectables are generally covered under the medical benefit. Injectables that are listed in the *CDPHP Commercial Formulary 2* are covered under the prescription drug coverage section of the member contract. In addition, over-the-counter (OTC) products, with the exception of insulin and diabetes monitoring products, are usually not covered. Enteral nutrition products which have been authorized for coverage will have a tier 3 cost share unless otherwise specified in the member contract.

Drugs represented in the *CDPHP Commercial Formulary 2* may have varying cost to the member. Tier 1 medications are available at the lowest cost, and tier 3 medications and medications not on the list will cost the most.

The tiered format places drugs into tiers in the following manner:

Tier 1: Generic prescription drugs which offer the most cost-effective alternative to available brand-name prescription drug products. It may also include those brand-name prescription drug products determined by the Plan's Pharmacy and Therapeutics (P&T) Committee to be included in quality initiative programs.

Tier 2: Preferred brand-name prescription drug products which offer overall clinical and/or financial value. Selected generic prescription drug products may also be included in this tier if they are not as cost effective as a tier 1 generic drug.

Tier 3: All other covered brand-name or generic prescription drugs which do not offer significant clinical and/or cost advantages over a tier 1 or a tier 2 drug.

Due to Federal and New York State mandates, certain drug classes will have no member cost share or a reduced member cost share than what is stated in this document. Examples of these drug classes include, but are not limited to, diabetic drugs, oral contraceptives and oral oncology drugs.

Please note that all new drugs will be excluded from the formulary and require prior authorization until reviewed by the CDPHP P&T Committee.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The CDPHP P&T Committee includes a cross-section of practicing network physicians and pharmacists whose primary role on the committee is to ensure that the most clinically appropriate and cost-effective drugs will be available for CDPHP members. The P&T Committee is responsible for reviewing new drugs, reviewing and revising pharmacy policies, reviewing patient profiles and drug utilization review quarterly reports, and reviewing clinical initiatives/programs for all lines of business. The members of the P&T Committee are bound by a confidentiality and conflict of interest agreement, which is renewed annually.

The actions of the CDPHP P&T Committee are communicated after each committee meeting by posting final decisions on the CDPHP Web page Formulary Updates section of Rx Corner on the Providers tab of <http://www.cdphp.com>.

PRODUCT SELECTION CRITERIA

All new drugs will be excluded from the formulary and require prior authorization review until reviewed by the P&T Committee. CDPHP P&T Committee will consider inclusion to the formulary based on CVS Caremark's recommendations.

When a new drug is considered for formulary inclusion, it will be reviewed relative to similar drugs currently on formulary. In addition, the entire CDPHP formulary is reviewed on an annual basis.

Quantity limitations, prior authorizations, dose optimization, and/or step therapy may also apply to formulary drugs.

Excluded drugs are not covered unless medical exception procedures have been followed and a medical exception is approved. Please note that certain drugs are additionally excluded in member contracts (e.g., cosmetic agents).

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. Drugs Listed on the formulary in lower case indicate generic drug and listings in upper case indicate Brand drug.

One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Research shows that members can save an average of 30-80% when they fill their prescriptions with a generic drug instead of a brand-name drug.

Prescription generic drugs undergo a strict U.S. Food and Drug Administration (FDA) approval process. Here are just some of the FDA standards and practices that generic manufacturers must follow:

- A generic medicine must be bioequivalent (performs in the same manner) to its brand-name counterpart.
- A generic medicine must pass the FDA's review for both active and inactive ingredients.
- The manufacturer facility of the generic medicine must pass FDA inspection.
- The generic medicine must have the same active ingredients and be available in the same strength and dosage form as its brand-name counterpart.
- The label of the generic medicine must include the same information found on the packaging of its brand-name counterpart. □ Finally, the FDA continues to monitor the generic drug for quality control after it has been approved (<http://www.fda.gov>).

The FDA is very strict in their review of a generic medicine before it goes to market. In most cases, the average person would not be able to tell the difference between a generic and a brand-name drug, other than the size, color, or shape. U.S. trademark laws require that generics look different from their brand-name equivalents.

SPECIALTY DRUGS (SP)

Specialty pharmaceuticals are used in the management of complex chronic or genetic conditions and certain catastrophic diseases.

They are often injectable medications, but they may also include oral agents. CDPHP has chosen CVS Caremark Specialty Pharmacy Services to dispense certain high-cost injectables and biotech drugs for its members. Eligible members will need to register and will receive a 30-day supply of medications and additional supplies needed to administer the medications.

Getting started with CVS Caremark Specialty Pharmacy Services is easy. There are three different options for contacting them: by phone toll-free at 1-800-237-2767; by fax toll-free at 1-800-323-2445; or online at <http://www.caremark.com>. CVS Caremark provides side-effect counseling, condition-specific materials, refill reminder calls, and access to health care professionals for emergency consultation 24 hours a day, seven days a week. CVS Caremark also provides Patient Resource Centers online at <http://www.caremark.com>. CDPHP members can access the latest news, helpful tips, interactive tools, drug information, safety alerts, support groups, links to communities, as well as other useful resources. For a complete list of specialty medications, visit Providers tab/Rx Corner/Specialty Pharmacy at <http://www.cdphp.com>. Drugs that are available to be filled through CVS Caremark Specialty Pharmacy services are noted within this booklet by the "SP" symbol, and drugs which are required to be filled through CVS Caremark Specialty Pharmacy are noted by the symbol "SPC." CVS Caremark Specialty Pharmacy can be contacted by calling toll-free at 1-800-237-2767.

PRIOR AUTHORIZATION (PA)

CDPHP requires prior authorization for certain drugs before they will be approved for coverage. Coverage will be approved when specific approval criteria for that drug is met, according to CDPHP policies.

The list of drugs that require prior authorization is subject to change from time to time and may not be all-inclusive. Drugs that require prior authorization are noted within this booklet by the "PA" symbol.

Prior authorization can be requested through the CDPHP Pharmacy Department by faxing the request to (518) 641-3208.

PRESCRIPTION QUANTITY MANAGEMENT

CDPHP, working closely with the P&T Committee members, has chosen to limit the quantity of certain drugs that CDPHP may cover for a member. Quantity limits are in place for quality and/or clinical considerations. The list of drugs that have quantity limits is subject to change from time to time and may not be all-inclusive. Drugs that have quantity limits are noted within this booklet by the "QL" symbol.

DOSE OPTIMIZATION

Dose optimization is a program to support appropriate and cost-effective drug therapy by recommending a higher once-daily dose of a product when members are taking multiple-daily doses of a lower strength. For example, a member may be taking two 20 mg tablets of a drug per day when only one 40 mg tablet could be used. If a practitioner determines that multiple daily doses are medically necessary, please submit the CDPHP Medical Exception Form by fax to (518) 641-3208 for consideration.

STEP THERAPY (ST)

The Step Therapy (ST) program is another form of prior authorization. The step therapy program uses a standard protocol to determine if members qualify for a drug that otherwise would not be covered. Using the standard protocol, certain drugs are not covered unless members have tried one or more "prerequisite therapy" medication(s) first.

Drugs that require step therapy are noted within this booklet by the "ST" symbol. The list of drugs that require step therapy is subject to change from time to time and may not be all-inclusive.

If it is medically necessary for a member to use a step therapy medication as initial therapy without trying a "prerequisite therapy" drug, the practitioner can request coverage of the step therapy medication by submitting the CDPHP Medical Exception Form by fax to (518) 641-3208 for consideration.

MEDICAL EXCEPTION PROCESS

The CDPHP P&T Committee developed the Medical Exception policy so that practitioners may request an excluded drug for a specific patient when medically necessary. The Medical Exception process is coordinated through CDPHP's Pharmacy Department. Requests are processed in the order received. Medical exceptions can be requested through the CDPHP Pharmacy Department by faxing the request to (518) 641-3208. In addition, a member may initiate a medical exception request by calling the telephone number to CVS Caremark printed on their CDPHP identification card or by utilizing the "Medical Exception Request" option found under Prescription Forms & Lists on the Forms and Tools section on the members tab of CDPHP's website, www.cdphp.com. A response will be sent to both the medical practitioner and member as soon as possible.

EDITOR

Your comments and suggestions regarding the *CDPHP Commercial Formulary 2* are encouraged. Your input is vital to this formulary's continued success. All responses will be reviewed and considered. Please send your comments to:
